Details

When hosting events or parties, decorating the room with flowers can completely transform the atmosphere; here, we introduce floral arrangements tailored to the specific occasion.

Table centerpiece

For seated parties, arrangements that are low in height—such as "elongated rectangular boxes" or designs using "flat dishes"—are recommended so as not to obstruct conversation among guests or the sharing of food.

(Table decorations)

Instead of gathering all the flowers into one large vase, try arranging a few stems each in smaller bottles or glass vases; this creates a rhythmic, airy feel across the entire table. It is perfect for casual lunch parties or get-togethers with friends.

We propose an overall presentation, including items such as vases and floral containers.

Photo Booth & Wall Decor

For home parties celebrating birthdays, baby showers, or special anniversaries, boldly decorating a wall with balloons, floral art, or paper flowers allows you to create the perfect spot for taking stunning photos.
